

Jennifer Dorning
Cella Molnar & Associates, Inc.

Years of Experience – 9

Expertise – Ms. Dorning has over nine years of public involvement experience in both the private and public sector. Having worked in government as a public liaison, she has the ability to work with sensitive issues and complex projects. Her project management skills combined with her extensive experience in dealing with the public both in person and via telephone communications make her uniquely qualified. Her diverse resume is topped off with her bilingual (Spanish) abilities as well as her proficiency in Adobe Creative Suite design software, ARC GIS and various Internet applications.

Education – B.A., Spanish Studies and Certificate of Journalism (Scientific Writing Emphasis)
University of Cincinnati, Ohio, 1998

Key Projects

SR 739 (Evans Avenue), Fort Myers, FL - Public Information Specialist for Community Awareness Program for the reconstruction and widening of Evans Avenue from Hanson Street to Martin Luther King Jr. Boulevard. In addition to the roadway widening, this project includes installation of new water lines. Activities include close coordination with the Florida Department of Transportation, Lee County Utilities and the City of Fort Myers Utilities during construction for roadway closures, maintenance of traffic, media coordination, and water shut-off and boil water notifications. Community Awareness Program conducted for the Florida Department of Transportation, District One.

U.S. 41 from Old U.S. 41 in Collier County to Old U.S. 41 in Lee County, Florida – Public Information Specialist for the State of Florida Department of Transportation’s six-laning project. Duties include addressing the public’s issues and concerns throughout the construction process. A public information workshop was held at the onset of the project to inform the public about the construction phasing. Notification newsletters were prepared for distribution to the affected property owners and tenants along the corridor. Community Awareness Program conducted for the Florida Department of Transportation, District One.

C.R. 765A/Taylor Road Bridge Replacement Construction Project at Alligator Creek, Charlotte County, Florida - Public Information Specialist for the Community Awareness Program for this bridge replacement project on Taylor Road at Alligator Creek, replacing the 60 year-old bridge with a new bridge. Community awareness duties included a public information workshop and coordination with area residents, businesses, media and local government agencies affected by the full road closure to replace the bridge. Community Awareness Program conducted for the Florida Department of Transportation, District One.

C.R. 901/Vanderbilt Drive Bridge Replacement at the Cocohatchee River, Collier County, Florida – Public Information Specialist for the Community Awareness Program for this bridge replacement project on Vanderbilt Drive, replacing the structurally deficient bridge with a new bridge which includes new pedestrian facilities on both sides. Community awareness duties include a public information workshop and coordination with area residents, businesses, media and local government agencies affected by the full road closure to replace the bridge. Community Awareness Program conducted for the Florida Department of Transportation, District One.
